Mechanical performance

l. Boundary dimension:

Figure 1

1. Electrical angl

е

Electical performance

360°

1P65

3. Output voltage:

2. Applied voltage:

2. Mecanical rotating angle:

3. Protection grade:

4. Rotating torque:

5. Mass: Tange: -30°C +80°C

Approx 12g

5. Corrent consum

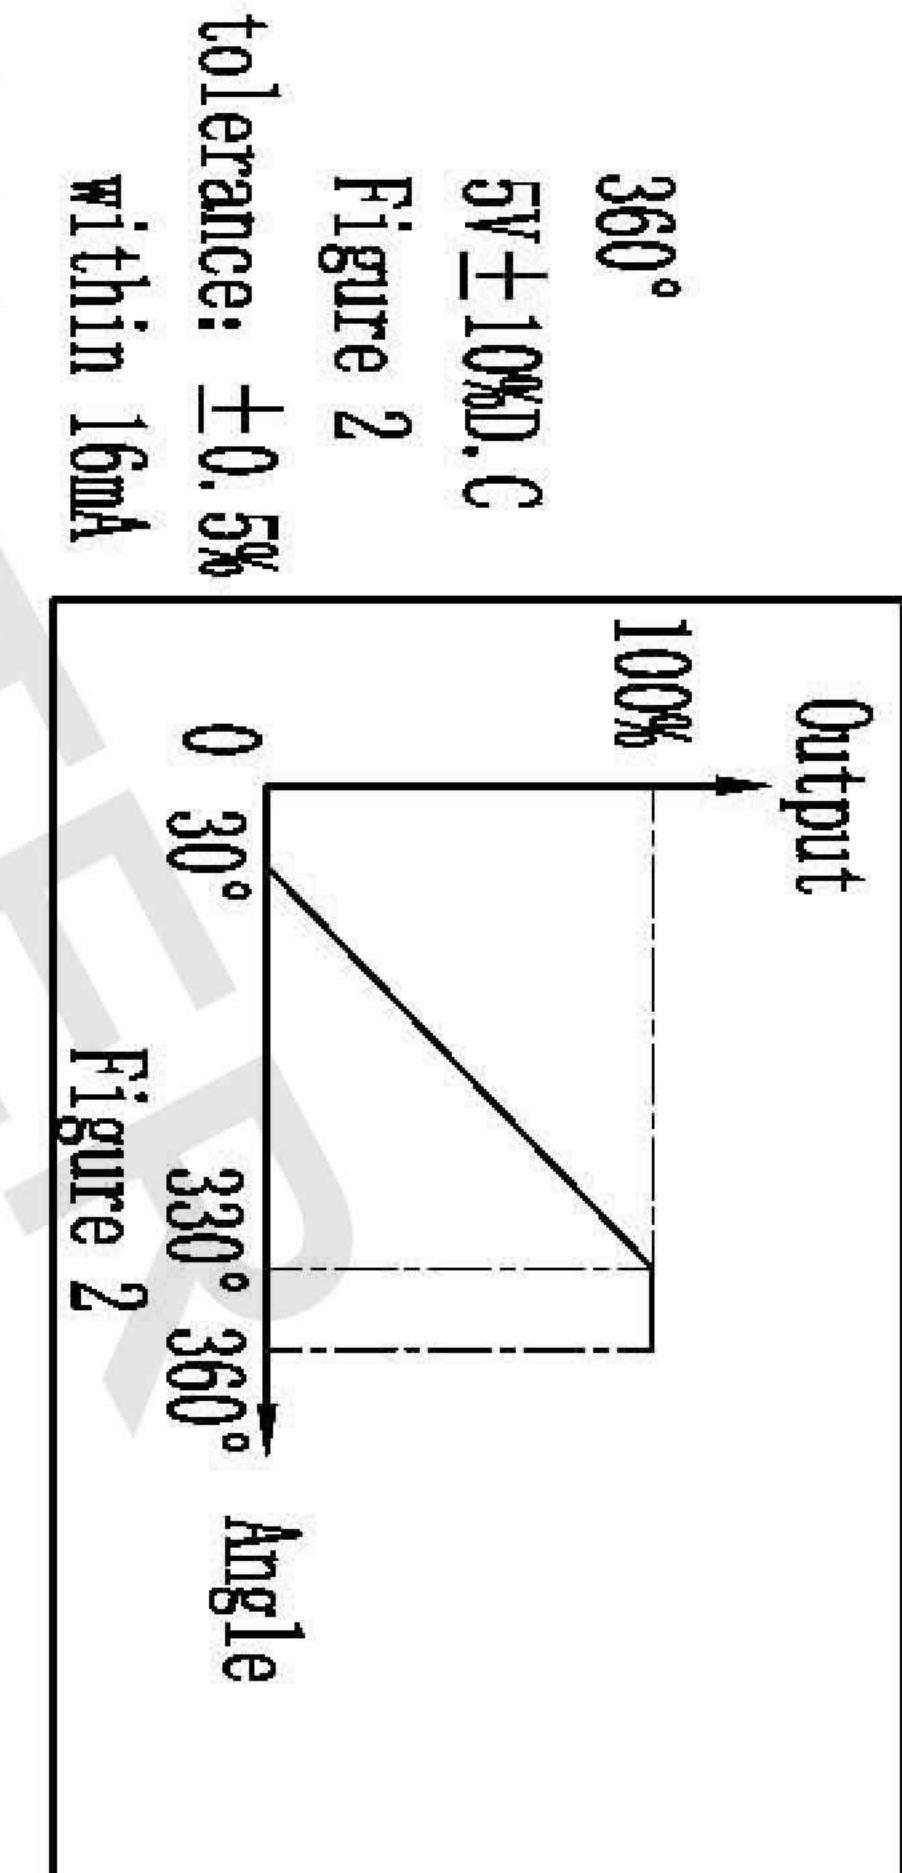

ption:

Within lmW • m 4. Independent linearity

6. Operation temperature

7. With 2 Servo mounting nails

This drawing is a temporary drawing, which will be confirmed the customer's confirmation. by the customer, and the formal drawing shall be subject to
